

PREMIER EQUESTRIAN

The Arena Company

Acceptable Ranges of Sand Particle sizes for **Athletex, ProStride**. The graph below shows the range that the sand particles must fall within to mix properly with these types of footing.

Typical Product Analysis				
	USA Sieve	Min. Range	Med. Range	Max. Range
This chart indicates the Particle Percent Passing each sieve. <i>This is an example of percentages that sands may contain. Use this as a guide for your sand provider.</i>	5 Mesh	100%	100%	100%
	10 Mesh	90%	100%	100%
	20 Mesh	80%	90%	100%
	35 Mesh	40%	70%	97%
	60 Mesh	10%	50%	90%
	120 Mesh	2%	30%	67%
	140 Mesh	3%	10%	40%
	200 Mesh	2%	5%	10%
	230 Mesh	0%	2%	3%
	Pan	0%	0%	0%

Please contact a Premier Specialist to verify that the sand you are using will perform.
