

PREMIER EQUESTRIAN[®]

The Arena Company

Acceptable ranges of sand particle sizes for textile footings. The graph below shows the range that the sand particles must fall within to mix properly with a textile footing.

Typical Product Analysis

This chart indicates the Particle Percent Passing each sieve. This is an example of percentages that sands may contain. Use this as a guide for your sand provider.

Please contact a Premier Specialist to verify that the sand you are using will perform.

USA Sieve	Min. Range	Med. Range	Max. Range
5 Mesh	100%	100%	100%
10 Mesh	100%	100%	100%
20 Mesh	90%	98%	100%
35 Mesh	80%	95%	97%
60 Mesh	50%	88%	90%
120 Mesh	15%	40%	67%
140 Mesh	5%	20%	40%
200 Mesh	2%	5%	10%
230 Mesh	1%	2%	3%
Pan	0%	0%	0%
