

# PREMIER EQUESTRIAN<sup>®</sup>

The Arena Company

Acceptable ranges of sand particle sizes for textile footings. The graph below shows the range that the sand particles must fall within to mix properly with a textile footing.

Typical Product Analysis	USA Sieve	Min. Range	Med. Range	Max. Range
<p>This chart indicates the Particle Percent Passing each sieve. This is an example of percentages that sands may contain. Use this as a guide for your sand provider.</p> <p>Please contact a Premier Specialist to verify that the sand you are using will perform.</p>	5 Mesh	100%	100%	100%
	10 Mesh	100%	100%	100%
	20 Mesh	90%	98%	100%
	35 Mesh	80%	95%	97%
	60 Mesh	50%	88%	90%
	120 Mesh	15%	40%	67%
	140 Mesh	5%	20%	40%
	200 Mesh	2%	5%	10%
	230 Mesh	1%	2%	3%
	Pan	0%	0%	0%
